

USE CASE INTERNAL STEPS

Name: *Add videogame to sell*

1. Seller selects the Game Catalogue Manager.
2. System displays all videogames in catalogue.
3. Seller selects “add videogame” button.
4. System opens videogame information window.
5. Seller adds videogame information.
6. Seller adds number of videogames available.
7. Seller confirms information.
8. System adds videogame to game catalogue.
9. System updates game catalogue.
10. System displays updated game catalogue.
11. Seller closes Game Catalogue Manager.

Extensions:

2a. Seller doesn't possess any selling videogames. System displays “no game” message and directly opens a videogame information window.

6a. Seller has more versions of videogame in stock. Seller adds additional information and numbers of these versions.

7a. System doesn't know of this game yet. System adds this game to its game database.
